

Equipment Maintenance

In addition to our document conversion services and systems, Microtek sells and services imaging related equipment. Our factory trained and certified technicians are available to perform maintenance support on a variety of micrographic and digital imaging units.

Microtek and Minolta

Microtek has been one of Minolta's (now KonicaMinolta) leading dealer of its line of microfilm reader printer and cameras. Our service team is a regular recipient of their Pro-Tech Service Award. The Pro-Tech Service Award recognizes those dealerships that demonstrate an exceptional commitment to customer support and satisfaction. Every element of the service operation-management skills, inventory control, technical expertise, dispatch systems, customer satisfaction and more-is scrutinized and measured.

Service Plans can be developed based on:

- Time and Materials
- Maintenance Agreements
- Preventative Maintenance
- Customize Agreements

Equipment covered by a Service Plan can include:

- Document Scanning Equipment
- Reader printers (microfilm)
- Planetary Cameras
- Rotary Cameras
- Microfiche Readers\
